

PROPOSAL TO FORM A VICTA AIRTOURER CLUB/GROUP/ASSN.

Mr. H. Cousin ;

47 Alexander Ave.,
HAZELBROOK. N.S.W. 2779.

1st June, 1977.

NOTICE TO ALL VICTA/A.E.S.L. AIRTOURER OWNERS AND INTERESTED PERSONS.

Dear Sir,

The above proposal to form a club etc. was discussed amongst some Airtourer owners recently, and gauging from response obtained to a notice, placed by me, in the May 77 edition of Aircraft Owners and Pilots Assn. Journal, I am convinced that the formation of the above club (in some form) is both practical and timely.

You may not be aware till now of this notice, therefore, this letter will serve as notifying you that a club is being formed now, and an invitation is extended to you for participation.

Membership is welcomed from all Airtourer owners, pilots endorsed on type, and any person previously or currently engaged in aircraft design, manufacture or overhaul of this fantastic Australian aircraft.

The framework of the club will be kept as simple as possible, with most effort being placed towards mutual benefit.

Club activities would be guided in directions of air races and competitions, formation flying (Just imagine a Victa or Airtourer squadron), aerobatic, singles, team events, accent on fostering new aviation friendships.

Information gained for members benefit will be available to all members and it is envisaged that notification of events and comments will be in the form of a monthly news sheet with some feedback through A.O.P.A. where applicable.

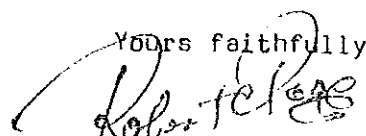

There are 95 Airtourers on the Australian Register. I would hope that future membership is representative of the interest each of us takes in our aircraft type.

A very special welcome is extended to A.E.S.L. Airtourer owners from New Zealand and other countries, formal invitation for these people is presently being drafted.

Enclosed is a form for statistical purposes, if it is completed then majority decisions based on the information gathered will influence the clubs initial framework. (May I add that the information will only be processed when supplied by intending members).

After the information is processed and a framework drafted then membership forms will be sent to all intending members.

Yours faithfully,

ROBERT C. PAGE.
